Client: Patty Cameron

Date completed:

Before You Begin

Patty, thank you for taking the time to fill this out.

This form is meant to help shape our private sessions in a way that feels supportive, respectful, and safe for your body and nervous system.

You do not need to answer anything perfectly. You are welcome to write as much or as little as feels right. If a question feels too much, you can skip it or simply write that you would rather talk about it in person.

This work is not therapy or medical treatment. It is body based, restorative, reflective support. My intention is to work alongside the care you already have in place, including your therapist, doctor, and any other providers who support you.
